DETAILED ACTION

This office action is in response to application 10/091,934 and RCE filed on 11/07/2006. Claims 42-48 remain pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 42, 44, 46 and 48 (Group 1), drawn to a method comprising a library of pre-defined transmission lines topologies for critical interconnects, classified in class 716, subclass 1.

II. Claims 43, 45 and 47 (Group 2), drawn to a an integrated circuit design library comprising transmission lines topologies for critical interconnects, wherein topologies comprise **return paths** and a set of **parameterized, equivalent RLC ladder networks**, classified in class 716, subclass 5.

Inventions 42, 44, 46 and 48 (Group 1), and 43, 45 and 47 (Group 2) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, because Group 2 includes design verification using wiring line resistance, inductance, capacitance, and fanout. The subcombination has separate utilities such as "return paths and a set of parameterized, equivalent RLC ladder networks".

3. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
